LTC Announces First Quarter Operating Results

WESTLAKE VILLAGE, Calif.--(BUSINESS WIRE)-- [LTC Properties, Inc.](http://www.LTCProperties.com) (NYSE:LTC) released results of operations for the three months ended March 31, 2009 and announced that net income allocable to common stockholders for the first quarter was \$8.0 million or \$0.35 per diluted share which includes \$0.6 million related to the repurchase of 109,484 share of preferred stock, as described below, and \$0.2 million related to the prepayment of a mortgage loan. For the same period in 2008, net income allocable to common stockholders was \$8.2 million or \$0.36 per diluted share which includes \$1.0 million related to the repurchase of 636,300 share of preferred stock, as described below. Revenues for the three months ended March 31, 2009, were \$17.7 million versus \$17.8 million for the same period last year.

The Company invested \$2.0 million during the quarter ended March 31, 2009 to repurchase a total of 109,484 shares of its Series F Cumulative Preferred Stock (or Series F Preferred Stock) at an average cost of \$18.27 per share, including commission. During the quarter ended March 31, 2008, the Company repurchased 636,300 shares of its Series F Preferred Stock for \$14.3 million or an average cost including commission of \$22.44 per share. The Series F Preferred Stock has a liquidation value of \$25.00 per share and a dividend rate of 8.0%. The difference between the liquidation value and the repurchase price, netted with the original issue costs, has been included in calculating net income allocable to common stockholders.

Quarterly and year-to-date computations of per share amounts are made independently. Therefore, the sum of per share amounts for the quarters may not agree with the per share amounts for the year.

Reconciliation of Funds From Operations ("FFO")

FFO is a supplemental measure of a REIT's financial performance that is not defined by accounting principles generally accepted in the United States. We define FFO as net income allocable to common stockholders adjusted to exclude the gains or losses on the sale of assets and adjusted to add back impairment charges, real estate depreciation and other non-cash charges. Other REITs may not use this definition of FFO and therefore, caution should be exercised when comparing our company's FFO to that of other REITs. FFO is used in the REIT industry as a supplemental measure of financial performance, but is not a substitute for net income per share allocable to common stockholders determined in accordance with accounting principles generally accepted in the United States.

The following table reconciles net income allocable to common stockholders to funds from operations allocable to common stockholders (unaudited, amounts in thousands, except per share amounts):

(1) Increase primarily due to increases in rental income resulting from lease restructuring and one-time interest income resulting from the prepayment of a mortgage loan.

(2) Increase primarily due to the decrease in market capitalization.

(3) This decrease is due primarily to non-payment of rental income and mortgage interest income from affiliates of Sunwest Management, Inc., loan pay-offs and lower invested cash balances at lower interest rates, partially offset by lower interest expense due to debt paid off in 2008. Additionally in the fourth quarter of 2008 we incurred \$0.6 million of one-time charges related primarily to lease/loan defaults and terminated transactions.

(4) Increase primarily due to decrease in interest expense relating to repayment of a \$14.2 million mortgage loan secured by four assisted living properties located in Ohio.

(5) Decrease due to repayment of a \$14.2 million mortgage loan secured by four assisted living properties located in Ohio.

(6) Revised as required by Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an Amendment of Accounting Research Bulletin No. 51."
