Reconciliation of Funds From Operations ("FFO")

FFO is a supplemental measure of a REIT's financial performance that is not

defined by accounting principles generally accepted in the United States. We define FFO as net income allocable to common stockholders adjusted to exclude the gains or losses on the sale of assets and adjusted to add back impairment charges, real estate depreciation and other non-cash charges. Other REITs may not use this definition of FFO and therefore, caution should be exercised when comparing our company's FFO to that of other REITs. FFO is used in the REIT industry as a supplemental measure of financial performance, but is not a substitute for net income per share allocable to common stockholders determined in accordance with accounting principles generally accepted in the United States.

The following table reconciles net income allocable to common stockholders to funds from operations allocable to common stockholders (unaudited, amounts in thousands, except per share amounts):

(1) Decrease primarily due to the repayment of \$15.8 million on two mortgage loans secured by 10 assisted living properties located in various states.

(2) Increase primarily due to decrease in interest expense relating to the repayment of debt.

(3) Increase primarily due to increases in rental income resulting from lease restructuring and one-time interest income resulting from the prepayment of a mortgage loan.

(4) Increase primarily due to the decrease in market capitalization.

(5) Decrease is due primarily to non-payment of rental income and mortgage interest income from affiliates of Sunwest Management, Inc., loan pay-offs and lower invested cash balances at lower interest rates, partially offset by lower interest expense due to debt paid off in 2008. Additionally in the fourth quarter of 2008, we incurred \$0.6 million of one-time charges related primarily to lease/loan defaults and terminated transactions.

(6) Decrease primarily due to increase in market capitalization.
