For the same period in 2010, net income available to common stockholders was \$6.7 million or \$0.29 per diluted share which included \$0.9 million provision for doubtful accounts related to a mortgage loan secured by a school property. The Company reported total revenues for the three months ended March 31, 2011, were \$20.3 million versus \$17.7 million for the same period last year.

During the three months ended March 31, 2011, the Company sold 3,990,000 shares in an underwritten public offering at a price of \$27.25 per share for gross proceeds of approximately \$108.7 million. Also during the three months ended March 31, 2011, the Company acquired two senior housing properties located in South Carolina with 118 licensed beds, 40 assisted living units, 34 independent living units, and 19 cottages and patio homes for \$11.5 million. These properties are leased to a third party operator under a 10-year lease with three 5-year renewal options. In addition, the Company purchased four skilled nursing properties with 524-beds in Texas for \$50.8 million which consists of \$41.0 million in cash at closing with the remainder in the form of contingent earn-out payments. The contingent earn-out payment arrangements require us to pay two earn-out payments totalling up to \$11.0 million upon the properties achieving a sustainable stipulated rent coverage ratio. These properties are leased to a third party operator under a 15-year lease with two five-year renewal options.

At March 31, 2011, the aggregate redemption amount of \$88.4 million was classified as a liability and the accrued and unpaid dividends were included under distributions payable on the consolidated balance sheet. Accordingly, the Company recognized the \$3.6 million of original issue costs related to the Series F preferred stock as a preferred stock redemption charge in the consolidated income statement line item income allocated to preferred stockholders.

On April 19, 2011, the Company announced that it had signed a new \$210.0 million, four-year Unsecured Credit Agreement ("Credit Agreement"), dated April 18, 2011. The Credit

Agreement provides for the opportunity to increase the credit amount up to a total of \$250.0 million. The Credit Agreement provides a revolving line of credit with no scheduled maturities other than the maturity date of April 18, 2015, and allows LTC to borrow at the same interest rates applicable to borrowings under its prior credit agreement, 150 basis points over LIBOR based on current leverage ratios. Subsequent to March 31, 2011, LTC had \$70.0 million outstanding under the new Credit Agreement with \$140.0 million available for borrowing.

Reconciliation of Funds From Operations ("FFO")

FFO is a supplemental measure of a real estate investment trust's ("REIT") financial performance that is not defined by U.S. generally accepted accounting principles ("GAAP"). The Company uses FFO as a supplemental measure of our operating performance and we believe FFO is helpful in evaluating the operating performance of a REIT. Real estate values historically rise and fall with market conditions, but cost accounting for real estate assets in accordance with U.S. GAAP assumes that the value of real estate assets diminishes predictably over time. We believe that by excluding the effect of historical cost depreciation, which may be of limited relevance in evaluating current performance, FFO and normalized FFO facilitate comparisons of operating performance between periods.

FFO is defined as net income available to common stockholders (computed in accordance with U.S. GAAP) excluding gains or losses on the sale of assets plus real estate depreciation and amortization, with adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect FFO on the same basis. Normalized FFO represents FFO adjusted from certain items detailed in the reconciliations. The Company's computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current National Association of Real Estate Investment Trusts' ("NAREIT") definition or that have a different interpretation of the current NAREIT definition from the Company; therefore, caution should be exercised when comparing our company's FFO to that of other REITs.

The Company uses FFO, normalized FFO, normalized FFO excluding non-cash rental income and normalized FFO excluding non-cash rental income and non-cash compensation charges as supplemental performance measures of our cash flow generated by operations and cash available for distribution to stockholders. FFO, normalized FFO, normalized FFO excluding non-cash rental income and normalized FFO excluding non-cash rental income and non-cash compensation charges do not represent cash generated from operating activities in accordance with U.S. GAAP, and are not necessarily indicative of cash available to fund cash needs and should not be considered an alternative to net income available to common stockholders.

The following table reconciles net income available to common stockholders to FFO available to common stockholders, normalized FFO available to common stockholders, normalized FFO available to common stockholders excluding non-cash rental income and normalized FFO available to common stockholders excluding non-cash rental income and non-cash compensation charges (unaudited, amounts in thousands, except per share amounts):
