# LTC REPORTS 2019 SECOND QUARTER RESULTS AND DISCUSSES RECENT ACTIVITIES

WESTLAKE VILLAGE, CALIFORNIA, August 8, 2019 — LTC Properties, Inc. (NYSE: LTC), a real estate investment trust that primarily invests in seniors housing and health care properties, today announced operating results for its second quarter ended June 30, 2019.

Net income available to common stockholders was \$20.4 million, or \$0.51 per diluted share, for the 2019 second quarter, compared with \$68.7 million, or \$1.73 per diluted share, for the same period in 2018. The decrease in net income available to common stockholders was primarily due to a higher gain on sale in the prior year, lower income from unconsolidated joint ventures, higher depreciation expense and transaction costs, partially offset by higher revenues.

Funds from Operations ("FFO") was \$29.7 million for the 2019 second quarter, compared with \$29.6 million for the comparable 2018 period. FFO per diluted common share was \$0.75 for the quarters ended June 30, 2019 and 2018.

LTC completed the following during the second quarter of 2019:

- Funded an additional \$7.5 million under an existing mortgage loan. The incremental funding bears interest at 9.41%, fixed for two years, and escalating thereafter by 2.25%;
- · Completed construction of and opened a 110-unit seniors housing community in Wisconsin;
- Transitioned two memory communities in Ohio and Kentucky with a total of 120-units from Thrive Senior Living ("Thrive") to a new operator. The memory care communities are under a 10-year master lease with initial cash rent of \$1.3 million in year one, \$1.5 million in year two, \$2.0 million in year three and \$2.2 million in year four. Rent may increase subject to a contingent escalation formula commencing in year five and annually thereafter; and
- · Transitioned a 56-unit memory care community in Texas from Thrive to an operator in LTC's current portfolio and added the property to an existing master lease. Annual cash rent under the master lease increased by \$400,000 and will increase by an additional \$300,000 on June 1, 2020, and 2.5% annually thereafter. Additionally, LTC will be entitled to incremental rent calculated as a percentage of increases in gross revenues generated by the community above an established threshold.

Subsequent to June 30, 2019, LTC:

- Entered into a purchase and sale agreement for the acquisition of a newly constructed 90-bed skilled nursing center located in Missouri for approximately \$19.5 million. Simultaneously upon closing, LTC will enter into a 12-year lease agreement with an operator new to LTC's portfolio at an initial cash yield of 8.3%.
   Additionally, LTC entered into a separate purchase and sale agreement for the acquisition of a parcel of land and development of a 90-bed skilled nursing center in Missouri with the same operator. The commitment totals approximately \$18.4 million. Concurrently with closing on the land acquisition, LTC will enter into a separate 12-year lease agreement at an initial cash yield of 9.3% effective upon completion of development, certificate of occupancy and licensure. These transactions are expected to close in the third quarter of 2019;
- Transitioned two memory care communities in Georgia and South Carolina with a total of 159-units from Thrive to an existing operator. The new 2-year lease has an initial cash rent of \$1.8 million. The lease provides the lessee one month free rent and the option to defer up to 50% of contractual rent for the next five months. The rent increases 3.5% in year two; and
- Effective August 1st transitioned the remaining Thrive property, a 60-unit memory care community located in Florida, to an existing operator. The new 10-year lease provides the lessee twelve months free rent increasing to \$450,000 in year two and \$600,000 in year three and thereafter. In year two the lessee has the option to defer rent in an amount not to exceed \$150,000. Rent may increase subject to a contingent escalation formula commencing in year three and annually thereafter.

<sup>(1)</sup> The new income statement line item "property tax expense" is due to the impact of newly adopted Accounting Standard Codification 842, *Leases* ("ASC 842"). See *Footnote 1* in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2019 for further discussion.

#### **Supplemental Reporting Measures**

FFO and Funds Available for Distribution ("FAD") are supplemental measures of a real estate investment trust's ("REIT") financial performance that are not defined by U.S. generally accepted accounting principles ("GAAP"). Investors, analysts and the Company use FFO and FAD as supplemental measures of operating performance. The Company believes FFO and FAD are helpful in evaluating the operating performance of a REIT. Real estate values historically rise and fall with market conditions, but cost accounting for real estate assets in accordance with GAAP assumes that the value of real estate assets diminishes predictably over time. We believe that by excluding the effect of historical cost depreciation, which may be of limited relevance in evaluating current performance, FFO and FAD facilitate like comparisons of operating performance between periods. Occasionally, the Company may exclude non-recurring items from FFO and FAD in order to allow investors, analysts and our management to compare the Company's operating performance on a consistent basis without having to account for differences caused by unanticipated items.

FFO, as defined by the National Association of Real Estate Investment Trusts ("NAREIT"), means net income available to common stockholders (computed in accordance with GAAP) excluding gains or losses on the sale of real estate and impairment write-downs of depreciable real estate, plus real estate depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. The Company's computation of FFO may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or have a different interpretation of the current NAREIT definition from that of the Company; therefore, caution should be exercised when comparing our Company's FFO to that of other REITs.

We define FAD as FFO excluding the effects of straight-line rent, amortization of lease inducement, effective interest income, deferred income from unconsolidated joint ventures, non-cash compensation charges, capitalized interest and non-cash interest charges. GAAP requires rental revenues related to non-contingent leases that contain specified rental increases over the life of the lease to be recognized evenly over the life of the lease. This method results in rental income in the early years of a lease that is higher than actual cash received, creating a straight-line rent receivable asset included in our consolidated balance sheet. At some point during the lease, depending on its terms, cash rent payments exceed the straight-line rent which results in the straight-line rent receivable asset decreasing to zero over the remainder of the lease term. Effective interest method, as required by GAAP, is a technique for calculating the actual interest rate for the term of a mortgage loan based on the initial origination value. Similar to the accounting methodology of straight-line rent, the actual interest rate is higher than the stated interest rate in the early years of the mortgage loan thus creating an effective interest receivable asset included in the interest receivable line item in our consolidated balance sheet and reduces down to zero when, at some point during the mortgage loan, the stated interest rate is higher than the actual interest rate. FAD is useful in analyzing the portion of cash flow that is available for distribution to stockholders. Investors, analysts and the Company utilize FAD as an indicator of common dividend potential. The FAD payout ratio, which represents annual distributions to common shareholders expressed as a percentage of FAD, facilitates the comparison of dividend coverage between REITs.

While the Company uses FFO and FAD as supplemental performance measures of our cash flow generated by operations and cash available for distribution to stockholders, such measures are not representative of cash generated from operating activities in accordance with GAAP, and are not necessarily indicative of cash available to fund cash needs and should not be considered an alternative to net income available to common stockholders.

#### **Reconciliation of FFO and FAD**

<sup>(1)</sup> We funded additional loan proceeds of \$7,400 and \$7,125 and committed to fund \$1,700 and \$3,000 in capital improvements, respectively, under an existing mortgage loan. The loan is secured by four SNF properties in Michigan. See page 8 for the detail of remaining commitments for expansions and renovations.

(2) Represents a mezzanine loan with a rate of 12,00% annually (8% paid in cash and 4% deferred during the first 46 months) which was originated in fourth quarter 2018 but funded in first quarter 2019.

(3) We funded additional loan proceeds of \$7,500 under an existing mortgage loan. The incremental funding bears interest at 9.41%, fixed for two years, and escalating by 2.25% thereafter.

SUPPLEMENTAL INFORMATION 2Q 2019

<sup>(1)</sup> Commitments may include capital improvement or development allowances for approved projects but excludes incentive payments and contingent payments. For a comprehensive list of our commitments, see our Quarterly Report on Form 10-Q.

(2) See page 7 for development activities.

We entered into a job in venture ("IV") to develop, purchase and own seniors housing communities. During 2018, the IV purchased land for the development of a 78-unit ALF/MC community for a total anticipated project cost of \$18,108. Additionally during 2018, in a sale-leaseback transaction, the IV purchased an existing operational 89-unit ILF community adjacent to the ALF/MC community we are developing for \$14,400. Upon completion of the development project, LTC's economic interest in the real estate IV is approximately 88%. We account for the IV on a consolidated basis. See page 6 for joint venture contributions.

(4) We entered into a IV to purchase an existing operational 74-unit ALF/MC community. The non-controlling partner contributed \$19.9 of equity and we contributed \$15,971 in cash. LTC's economic interest in the real estate IV is approximately 95%. We account for the IV on a consolidated basis. See page 6 for joint venture contributions.

Increased due to acquisitions, developments and capital improvement projects partially offset by decreased rent from properties sold in 2018.
 Per the provisions of the new GAAP lease standard, any lessor cost, paid by the lessor and reimbursed by the lessee, must be included as lease payment. We have adopted the new lease standard using a modified retrospective approach as of January 1, 2019. Accordingly, we are not required to report this revenue stream for periods prior to January 1, 2019.
 Decrease is due to the adoption of the new GAAP lease standard, under which we wrote off straight-line rent and lease incentives related to certain operators due to our assessment that it is not probable that we will collect substantially all of the lease obligation through maturity.
 Represents the write-off of straight-line rent due to a lease termination and transition of two seniors housing communities to a new operator.

Same Property Portfolio ("SPP"): Same property statistics allow for the comparative evaluation of performance across a consistent population of LTC's leased property portfolio and the Prestige Healthcare mortgage loan portfolio. Our SPP is comprised of stabilized properties occupied and operated throughout the duration of the quarter-over-quarter comparison periods presented (excluding assets sold and assets held-for-sale). Accordingly, a property must be occupied and stabilized for a minimum of 15 months to be included in our SPP.

Skilled Nursing Properties ("SNF"): Seniors housing properties providing restorative, rehabilitative and nursing care for people not requiring the more extensive and sophiaticated treatment available at acute care hospitals. Many SNFs provide ancillary services that include occupational, speech, physical, respiratory and IV therapies, as well as sub-acute care services which are paid either by the patient, the patient's family, private health insurance, or through the federal Medicare or state Medicaid programs.

Stabilized: Properties are generally considered stabilized upon the earlier of achieving certain occupancy thresholds (e.g. 80% for SNFs and 90% for ALFs) and, as applicable, 12 months from the date of acquisition or, in the event of a de novo development, redevelopment, major renovations or addition, 24 months from the date the property is first placed in or returned to service, or issuance of certificate of occupancy for properties acquired in lease-up.

Under Development Properties (\*UDP\*): Development projects to construct seniors housing properties.
